Dear Senator Schumer,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable Companies. The FCC and DOJ should not approve this deal, which destroys good Union jobs and is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless will form a giant unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and Cable, halting any incentive to invest in Fios and compete against cable. This will be fewer jobs building, maintaining, servicing and installing the Fios network.

Dear Senator Lewentberg,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and Cable companies. The FCC and DOT should not approve this deal, which destroys good, union jobs, and is also bad for customers.

This proposed deal endangers a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, serving and installing the FiOS network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing cuts & jobs. Even regions with FiOS could be affected, since there will be far less incentive to invest in the network.

Dear Senator Santobono:

I am writing to you to fight against the proposed deal between Verizon's subsidiary (Verizon Wireless) and the Cable Companies. The FCC and DOT should not approve this deal, which destroys good, union working class jobs and is also bad and unfair to the consumers.

This proposed deal ends a historic competition between Verizon and the Cable companies, including Comcast and Time Warner. Verizon through its subsidiary (Verizon Wireless) is trying to form a giant, unregulated monopoly with the cable companies against the best interest of the customers.

This deal will be very profitable for Verizon Wireless and could, causing a lack of incentive to invest or improve Fios and the end of fair competition against Cable.

This will result in fewer jobs, building and maintenance reduction as well as servicing and installing the Fios network which is still very profitable and viable business. Brings jobs to the working class citizens of America who live in America and not overseas.

If this deal goes through Cities like: Buffalo,

Syracuse, Albany other upstate cities and rural areas, as well as Hoboken Long Island and in New York state and also many areas in New Jersey including my home town of Iselin in Woodbridge will continue to be without Fios which this company prides itself as the best product on the market.

As a result of this proposed Verizon will continue to lay off many of us members of both CWA and IBEW and destroy our families while jobs continue to be outsourced to India, the Philippines and other countries in parts of America.

Dear Senator Lautenberg,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroys job, union jobs, and is also bad for customers.

The proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies.

This deal will be very problematic for Verizon Wireless and cable, ending any incentive to invest in fiber and compete against cable. There will be fewer jobs building, maintaining, repairing and installing the fiber network.

Buffalo, Syracuse, Albany, and Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CMAs and TGEN jobs. Over regions with FIOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers.

Thank you for your consideration.

Sincerely,

Laurie Ventura

Dear Senator Lautenberg,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroys good union jobs, and is also bad for the customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, unregulated quasi-monopoly with the cable companies. This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing FiOS network.

Buffalo, Syracuse, Albany, other upstate cities and rural areas, as well as eastern Long Island, will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with FiOS could be affected, since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.
